## About Us

The A Little Something Different ISS Learning Center is owned by Paul & Cheryl Chollett and managed as a family business, with their daughter Megan Karlsen. The family has a true and deep passion for providing the best possible program and personal care for the clients they serve. The company has been in business since 2010 and has stayed relatively small in size so that the family can maintain a high level of direct involvement in the care and day-to-day lives of its clients. Our administrative offices are located directly next door to the Learning Center so that we can constantly be involved in the care of our clients. Karin Celeste, a long-time member of the ALSD Family, is the Learning Center Supervisor.

Karin's familiarity and intuition with our clients cannot be matched! She brings such a loving and compassionate heart to the lives of our Learning Center clients and embodies the mission of A Little Something Different.

## Learning Center On-Site Program Activities

The Learning Center's program, activities and the facility are designed to serve individuals with varying physical and developmental disabilities. The curriculum always includes exercise, reading, current events, crafts, cooking, games and educational activities. A new theme is introduced each month to keep the clients learning and interested. The Learning Center follows a structured Daily Schedule and a Curriculum Calendar, both of which are published on the Learning Center Website.

## Learning Center Off-Site Program Activities

One of our goals at the Learning Center is to encourage the clients to participate in community outings. The Learning Center follows a daily Outings Calendar that is published monthly on the Website for our family members to follow.
